PREFACE

Vocabulary from Classical Roots® encourages you to look at words as members of families. Just as members of a human family usually have things in common, so do members of word families. In this book you will get to know groups of words descended from Latin and Greek roots. Each word family has a root that is connected to a concept, or idea. The idea of “serving and helping,” for example, is rooted in *serv* from the Latin word *servire*. It is easy to see that such words as *service*, *server*, and *serviceable* are members of the *serv* family.

Latin and Greek roots are word parts that carry meaning. Learning these roots will help you understand many words that contain these meaningful parts. If you know that the Latin root *vari* means “different, varied,” then you know part of the meaning of *various*, *variety*, and *variation*. Not only does the knowledge of classical roots increase your vocabulary. It also shows you that many words you use today, such as *technology* and *classification*, have ancestry that can be traced back for centuries.

NOTES ON USING VOCABULARY FROM CLASSICAL ROOTS

1. Latin and Greek forms. The Latin or Greek source of each root appears with its meaning before the definitions of its featured words.
2. Diacritical marks. Following every defined word is the guide to pronunciation. You will find a key to the diacritical marks on the inside front cover.
3. Familiar Words and Challenge Words. Listed next to groups of defined words are two boxes of words belonging to the same family: (1) Familiar Words that you probably already know, and (2) Challenge Words that you may want to figure out.
4. Nota Bene. *Nota bene* means “note well.” It is often abbreviated to N.B. Each NOTA BENE will give you some extra information about a key word.
5. Exercises. In each lesson, Exercise A focuses on synonyms. Exercise B asks you to use key words to fill in blanks in context. Exercise C features a suffix related to a key word. The review lessons reinforce meanings of roots, prefixes, suffixes, and key words.

LESSON 1

Good Sense Across the Grades

The root *grad* as in **grade** means “step, grade level.” The word **grade** and its root *grad* are similar in spelling and meaning.

The root *sens* as in **sense** means “feeling, sensing, being aware of.” The word **sense** and its root *sens* are similar in spelling and meaning.

All of the following key words start with either the root *grad* or the root *sens*. In each key word, circle the root.

Key Words

gradually

graduation

sensational

sensible

graduate

sensation

senseless

sensitive

Using ROOT CLUES

The roots *grad* (step) and *sens* (feeling) give you clues about meaning. When you spot one of these roots in a word, you have a key to the word’s meaning. Use the underlined root clues to help you match the following columns:

1. _____ graduate

A. quick to have hurt feelings

2. _____ gradually

B. to complete all the steps of schooling

3. _____ sensitive

C. little step by little step

4. _____ sensation

D. a feeling

The root clues did not give you complete definitions as the following dictionary listings will. But they got you started by giving you *part* of the meaning. Sometimes that *part* helps you to figure out the word.

GRAD (from the Latin word *gradus* meaning “step, grade level”)

*Familiar Words
with Root GRAD*

grade
graded
grades
grading
gradual

1. gradually (gra'jə wə lē)

adv. Step-by-step, in a slow manner, not suddenly.

Emma practiced the 100-yard dash every day and gradually improved her speed.

2. graduate (gra'jə wət)

n. A student who has finished all the steps in a course of study.

The graduates walked across the stage in their caps and gowns to receive their diplomas.

v. To finish one's schooling. (gra'jə wāt)

If Roger passes all his final exams, he will graduate in the spring.

*Challenge Words
with Root GRAD*

downgrade
gradation
upgrade

3. graduation (gra jə wā' shən)

n. The ceremony at the completion of school.

After the graduation, students gathered with friends and families for photos.

SENS (from the Latin word *sensus* meaning “feel, become aware of, sense”)

*Familiar Words
with Root SENS*

sense
sensed
senses
sensing

*Challenge Words
with Root SENS*

extrasensory
sensitivity
sensitivity
sensitize
sensory

4. sensation (sen sā' shən)

n. A feeling, an awareness coming from the senses.

The sensation of fear gives some people goose bumps.

5. sensational (sen sā' shən əl)

adj. Exciting, outstanding.

Rita made a sensational somersault in the air and landed perfectly.

6. senseless (sens' lis)

adj. 1. Foolish, not showing good judgment.

We quickly realized that raking leaves on such a windy afternoon was a senseless job.

2. Unconscious.

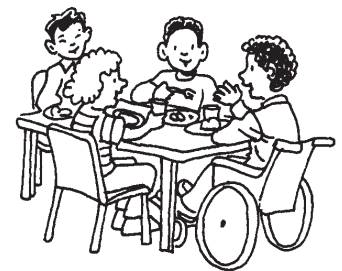

When I fell on the ice and hit my head, I was knocked senseless for a few seconds.

7. sensible (sen' sə bəl)

adj. Wise, showing good sense.

For lunch, my friends and I make sensible choices, avoiding foods with lots of fat and sugar.

8. sensitive (sen' sə tiv)

adj. 1. Easily hurt.

Mac is too sensitive; he gets upset if anyone corrects him.

2. Quick to notice, feel, or react to.

Dena is so sensitive to animal hairs that she sneezes as soon as she enters a pet store.

EXERCISE A: SYNONYMS

Write the letter of the best **SYNONYM** (the word with the meaning most nearly the same as the word in bold-faced type).

1. _____ a **sensational** catch

- a. late b. difficult c. outstanding d. first

2. _____ the **sensation** of dizziness

- a. feeling b. fun c. fear d. approach

3. _____ happy to **graduate**

- a. finish b. study c. continue d. return

4. _____ **gradually** making progress

- a. quickly b. without c. soon d. slowly

EXERCISE B: MEANING IN CONTEXT

Use these words to fill in the blanks in the following paragraph.

sensible

graduation

senseless

sensitive

My big brother loves to swim, but his skin is very (1) _____

to the sun. Usually, he is (2) _____ and puts on sunscreen.

Soon after his (3) _____ from high school, my brother and

his friends went to the beach for the day. Seeing his sunscreen at home, I

biked to the beach to find him. He was surprised to see me until I gave him

the lotion, saying, "It would be (4) _____ for you to get a

bad sunburn."

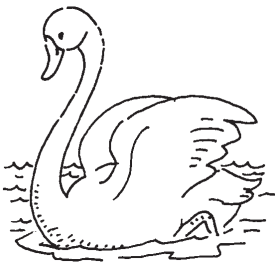

EXERCISE C: EXTEND YOUR VOCABULARY

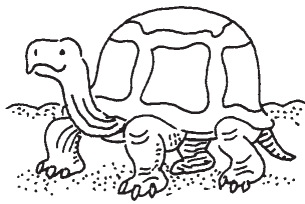

The adverb suffix *-ly*

The key word *gradually* ends in the suffix *-ly*. *Gradually* tells how something is done. Many other words that end in *-ly* also tell how something is done. Examples: *quickly*, *neatly*, *carefully*, *bravely*. These words are called adverbs.

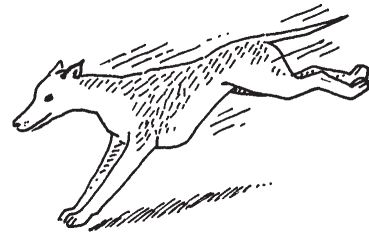

The underlined adverbs in the questions below tell how these creatures move. Look at the pictures. Then answer the questions.

A. swan

B. turtle

C. dog

1. Which creature often moves rapidly? Circle your answer. A B C
2. Which creature often moves slowly? Circle your answer. A B C
3. Which creature often moves gracefully? Circle your answer. A B C

Now, take away the suffix *-ly* from each underlined adverb above.

4. Write the three words that are left.

5. Write a sentence using the adverb *gradually*.

LESSON 2

Moving toward Numbers

The root *mot* as in *motion* means “to move, to do.” The root *numer* as in *numeral* means “number.” All of the following key words start with either the root *mot* or the root *numer*. In each key word, circle the root.

Key Words

motel

motivate

motor

numerical

motionless

motive

numerator

numerous

Using ROOT CLUES

The roots *mot* (move) and *numer* (number) give you clues about meaning. When you spot one of these roots in a word, you have a key to the word's meaning. Use the underlined root clues to help you match the following columns:

1. _____ motive

A. a number in a fraction

2. _____ numerator

B. the reason that moves a person to do something

3. _____ motionless

C. a large number of

4. _____ numerous

D. without moving

The root clues did not give you complete definitions as the following dictionary listings will. But they got you started by giving you *part* of the meaning. Sometimes that *part* helps you to figure out the word.

MOT (from the Latin word *movere*, *motus* meaning “to move, do, act”)

*Familiar Words
with Root MOT*

motion
motioned
motioning
motions

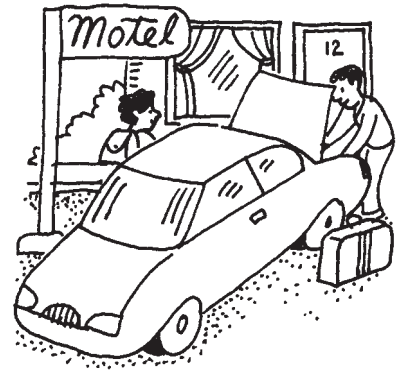

*Challenge Words
with Root MOT*

motivation
motorist
promote
promotion
remote

1. motel (mō tel')

n. A hotel or a group of cabins by the road for motorists.

After a long day of riding in the car, we were glad to get into our room at the motel.

NOTA BENE

The word *motel* combines the beginning of the word *motorist* (a person driving a car) with the ending of the word *hotel*. Our language sometimes adds new words by combining old words. The word *smog* is a combination of *smoke* and *fog*. A meal eaten late in the morning is called *brunch* because it is after *breakfast* and before *lunch*. New words come into our language in many ways, but one of the handiest ways is by combining.

2. motionless (mō' shən lis)

adj. Not moving at all, still.

From a distance the surface of the lake looked as motionless as a pane of glass.

3. motivate (mō' tə vāt)

v. To move a person to action, to make a person eager to do something.

A love of science motivated the young woman to become an astronaut.

4. motive (mō' tiv)

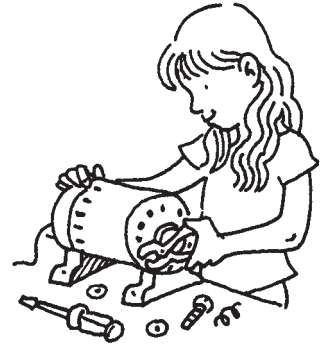

n. The reason or cause someone does something.

Helene's motive for babysitting is to earn money for the school trip to Washington, D.C.

5. motor (mō' tər)

n. A machine that uses some form of power, like electricity or gas, to make something move.

Maggie used pliers and a screwdriver to make a simple repair on the motor.

**NUMER** (from the Latin word *numerus* meaning "number")

*Familiar Words
with Root NUMER*

numeral
numerals

6. numerator (nü' mə rā tər)

n. The number that is above the line, or to the left of the line, in a fraction.

In the fraction $\frac{3}{8}$, the numerator is 3.

7. numerical (nü mer' i kəl)

adj. Related to numbers, or a series of numbers.

Our teacher told us to list our spelling test scores in numerical order from the lowest to the highest.

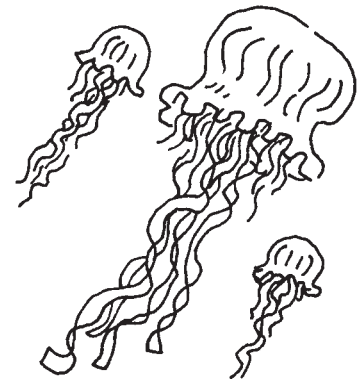

*Challenge Words
with Root NUMER*

enumerate
innumerable

8. numerous (nü' mə rəs)

adj. Many, a large number of.

Jellyfish were so numerous at the beach that we decided not to go in the water.

EXERCISE A: SYNONYMS

Write the letter of the best **SYNONYM** (the word with the meaning most nearly the same as the word in bold-faced type).

1. _____ seeing **numerous** animals

- a. wild b. lost c. sick d. many

2. _____ the **motor** in the fan

- a. air b. heat c. machine d. blades

3. _____ a **motel** near the highway

- a. car b. sign c. picnic d. building

4. _____ as **motionless** as a statue

- a. still b. hard c. carved d. beautiful

EXERCISE B: MEANING IN CONTEXT

Use these words to fill in the blanks in the following paragraph.

numerators

motive

numerical

motivate

Eddie has always loved numbers. When he first learned to count,

he painted numbers on his toy cars. Then he lined them up in

(1) _____ order from one to five. Now he enjoys learning

about fractions and working with (2) _____ and denomina-

tors. Eddie's (3) _____ for always doing his math homework

first is simple enjoyment. Perhaps his love of numbers will later

(4) _____ him to become a mathematician or an accountant.

EXERCISE C: EXTEND YOUR VOCABULARY

The adjective suffix *-less*

The key word *motionless* ends in the suffix *-less*. Words ending in *-less* are usually adjectives. Adjectives describe people, places, and things. Examples: *helpless* babies, *cloudless* skies, *useless* junk. When the suffix *-less* is added to a word, the meaning of the word changes.

Less can also stand alone. Then, it is a word meaning “fewer; a smaller amount.” You can say, “After dogs shed, they have *less* hair,” or “If you would talk *less*, you might learn more.” In these sentences, *less* is a word, not a suffix.

Make new words by adding the suffix *-less* to each of these words. Write the new word on the line.

1. care _____

2. worth _____

3. fear _____

4. thought _____

5. sleep _____

6. Look at the five words you wrote. What meaning does the suffix *-less* have in these words? Circle your answer.

A. without

B. full of

C. against

7. Write a sentence using the adjective *motionless*.

LESSON 3

Delighted with Questions

The root *deli* as in *delight* means “pleasant.” The root *ques* as in *question* means “to ask; to search.”

All of the following key words start with either the root *deli* or the root *ques*. In each key word, circle the root.

Key Words

delicacy

delicatessen

delightful

questionable

delicate

delicious

quest

questionnaire

Using ROOT CLUES

The roots *deli* (pleasant) and *ques* (ask) give you clues about meaning. When you spot one of these roots in a word, you have a key to the word’s meaning. Use the underlined root clues to help you match the following columns:

1. _____ delightful

A. printed questions that ask for personal information

2. _____ questionable

B. pleasant and enjoyable

3. _____ delicious

C. needing to be asked about

4. _____ questionnaire

D. very pleasant to eat

The root clues did not give you complete definitions as the following dictionary listings will. But they got you started by giving you *part* of the meaning. Sometimes that *part* helps you to figure out the word.

DELI (from the Latin word *delicere* meaning “to be pleasing”)

*Familiar Words
with Root DELI*

delight
delighted
delighting
delights

*Challenge Words
with Root DELI*

deliciousness
delightfulness
indelicate

1. delicacy (del' ə kə sē)

n. 1. Fineness in appearance or build.

The image of the water lily was made with great delicacy from tiny pieces of colored glass.

2. A food that is choice and well prepared.

That bakery has many wonderful pastries, but this cream puff is a true delicacy.

3. Concern for the feelings of others.

Rafe chose his words carefully in order to deliver the unpleasant news with delicacy.

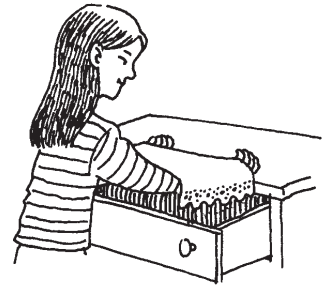

2. delicate (del' ə kit)

adj. 1. Easily torn or broken.

Monica carefully lifted her grandmother's delicate lace shawl out of the drawer.

2. Mild, pleasing in smell or taste;
light in color.

I began the painting with a delicate shade of blue for the sky and a darker blue for the water.

3. delicatessen (del ə kə tes' ən)

(often shortened to *deli*)

n. A shop that sells prepared foods such as cooked meats, cheeses, salads, and desserts.

On our way home, we stopped at the delicatessen to buy cold cuts and potato salad.

4. delicious (di lish' əs)

adj. Pleasing to the taste.

Jasmine makes delicious hamburgers on her grill in the backyard.

5. delightful (di lit' fəl)

adj. Enjoyable, very pleasant.

We had a delightful hike around the lake because the weather was just beautiful.

QUES (from the Latin word *quaestio* meaning "to ask, to search")

*Familiar Words
with Root QUES*

question
questioned
questioning
questions

6. quest (kwest)

n. A hunt or search.

In the story, the quest for the stolen treasure brought the young man to a fight with a dragon.

**7. questionable** (kwes' chə nə bəl)

adj. Not certain, doubtful, open to question.

The worth of the painting was questionable, since one expert thought it might be a copy.

*Challenge Words
with Root QUES*

inquest
request
unquestionable

8. questionnaire (kwes chə ner')

n. A printed list of questions for getting information; a form to write on.

On Ben's first day in his new school, he filled out a questionnaire about himself.

Name: _____
Address: _____
Phone: _____
Parents' Names: _____
Grade: _____

EXERCISE A: SYNONYMS

Write the letter of the best **SYNONYM** (the word or phrase with the meaning most nearly the same as the word in bold-faced type).

1. _____ having a **delightful** time

- a. pleasant b. short c. sensible d. fair

2. _____ a flower with a **delicate** stem

- a. pretty b. large c. heavy d. breakable

3. _____ a short **questionnaire**

- a. paper with questions b. lesson with questions
c. practice questions d. study questions

4. _____ a **quest** for adventure

- a. taste b. search c. wish d. feeling

EXERCISE B: MEANING IN CONTEXT

Use these words to fill in the blanks in the following paragraphs.

delicious

delicatessen

questionable

delicacy

Alex Spence went shopping with his mom at the (1) _____.

“The angel food cake that they make here is a real (2) _____,”
said Mrs. Spence. “It will be great for our family picnic.”

Alex nodded and said, “Their chicken salad with walnuts is
(3) _____, too. Do you think we’ll have any leftovers
from the picnic?”

His mother laughed. “That is very (4) _____.”

 EXERCISE C: EXTEND YOUR VOCABULARY

The adjective suffix *-ful*

The word *delightful* ends in the suffix *-ful*. *Delightful* is an adjective, a word that describes. Many words that end in *-ful* are adjectives. Some examples are *careful*, *colorful*, *wasteful*, *peaceful*.

Look at the pictures. Then answer the questions.

A.

B.

C.

- 1. Which student is cheerful? Circle your answer. A B C
- 2. Which student is sorrowful? Circle your answer. A B C
- 3. Which student is fearful? Circle your answer. A B C

Suppose you took away the suffix *-ful* from each underlined adjective above.

- 4. Write the three words that would be left.

- 5. Which meaning best fits the suffix *-ful*? Circle it.

A. not having B. full of

- 6. Write a sentence using the adjective *delightful*.

LESSON 4

Reviewing Lessons 1–3

EXERCISE A: MATCHING

Match each root with its meaning.

- | | |
|----------------|----------------------|
| 1. _____ numer | A. move |
| 2. _____ grad | B. number |
| 3. _____ mot | C. ask, search for |
| 4. _____ ques | D. step, grade level |
| 5. _____ deli | E. feel, sense |
| 6. _____ sens | F. pleasant |

In Exercise C of Lessons 1, 2, and 3, you learned about these suffixes. Match the columns.

- | | |
|--------------------------|-----------------------|
| 7. _____ -ful | G. without |
| 8. _____ -less | H. full of, having |
| 9. _____ -ly | I. adjective suffixes |
| 10. _____ -ful and -less | J. adverb suffix |
11. What suffix do you see on these words: *senseless*, *motionless*? _____
12. Write the two suffixes that you see on this word: *delightfully*.
- _____

EXERCISE B: SORTING

Sort these words, listing each one under its root. When you finish, add another word that goes with each group. (Look back at the lists of familiar and challenge words for ideas.)

numerous	sensitive	questionable	delicate
sensational	motive	delightful	sensible
delicacy	graduation	motor	gradually
quest	numerator	sensation	motel
senseless	questionnaire	graduate	delicious
motivate	delicatessen	motionless	numerical

1. MOT

2. DELI

3. SENS

4. GRAD

5. NUMER

6. QUES

EXERCISE C: VOCABULARY FROM YOUR TEXTBOOKS

Some of the subjects you study in school have specific words connected with them. Read the four words below. Then use them to answer the following questions.

motive**numerator****motor****quest**

1. Which word are you likely to read in a lesson on fractions?

2. When you study how energy is used to make machines run, which word do you expect to see?

3. In stories about King Arthur and his knights, what word might you meet?

4. Which word would you expect to find in a mystery story?

EXERCISE D: RHYMING RIDDLES

Write the letter of the answer for each riddle.

A. Sweet treat**B. Nest quest****C. Rare questionnaire****D. Swell motel**

1. _____ What do you call a search for robins' eggs?

2. _____ What do you call a delicious delicacy?

3. _____ What do you call a first-rate place to stay overnight by the highway?

4. _____ What do you call a set of questions you answer every two or three years?

LESSON 5

Studying for a Part

The root *part* as in *partly* means “separate piece, part.” **Part** is both a word and a root. The word **part** and the root *part* are the same in spelling and meaning.

The root *studi* as in *studied* means “learn, study.” The word **studied** and its root *studi* are similar in spelling and meaning.

All of the following key words except one start with either the root *part* or the root *studi* (*study*). In each key word, circle the root.

Key Words

partial

particular

partner

studiousness

particle

partition

studio

understudy

Using ROOT CLUES

The roots *part* (piece) and *studi* (learn) give you clues about meaning. When you spot one of these roots in a word, you have a key to the word’s meaning. Use the underlined root clues to help you match the following columns:

1. _____ studio

A. a small piece of something

2. _____ particle

B. a place where an artist can help students
learn to draw

3. _____ understudy

C. a person who owns a piece of a business

4. _____ partner

D. a person who learns the lines of the star
in a play

The root clues did not give you complete definitions as the following dictionary listings will. But they got you started by giving you *part* of the meaning. Sometimes that *part* helps you to figure out the word.

PART (from the Latin word *partis* meaning “separate part, piece”)

*Familiar Words
with Root PART*

apart
part
parted
parting
partly
parts

*Challenge Words
with Root PART*

department
impartial
partiality
participate
partnership

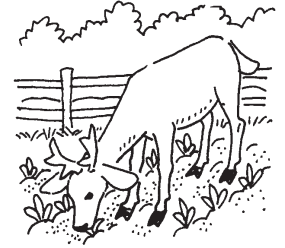

1. partial (pä'r' shəl)

adj. 1. Fond of someone or something.

Our family is partial to vacations that take us to the outdoors, like camping and hiking.

2. In part, incomplete, not whole.

Our vegetable garden was only a partial success this summer because deer ate some of the plants.

2. particle (pä'r' ti kəl)

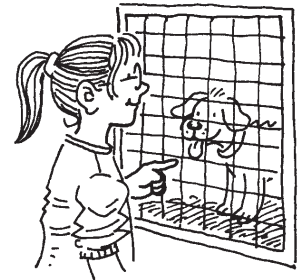

n. A small piece of something, a tiny bit, a speck.

The particles of sand and soil in a dust storm can be carried thousands of miles.

3. particular (pä'r tik' yə lər)

adj. Special, set apart from others in a group.

Michelle liked all the dogs, but that particular puppy was the one she wanted.

4. partition (pä'r tish' ən)

v. To divide into parts.

North American settlers partitioned the land where buffalo once grazed.

n. Something that divides one part of a room, drawer, or area from another.

The tall bookcase served as a partition, separating the dining room from the living room.

5. partner (pärt' nər)

n. One who takes part in an activity with another person.

When Peter plays doubles in tennis, he usually chooses Lara to be his partner.

**STUDI** (from the Latin word *studere* meaning “to study”)

*Familiar Words
with Root STUDI*

studied

studies

studious

study

studying

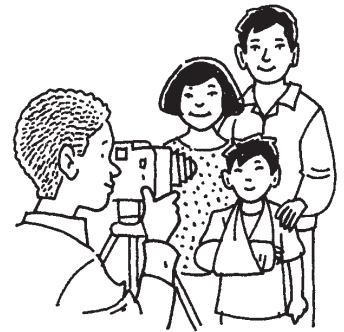

6. studio (stü' dē ō)

n. 1. A place where recordings, radio broadcasts, TV programs, and movies are made.

The announcer at the television studio showed replays of parts of the game.

2. A room where an artist, musician, dancer, or photographer works or teaches.

We went to the photographer's studio to get a family portrait.

*Challenge Words
with Root STUDI*

restudy

studiously

7. studiousness (stü' dē əs nes)

n. Attentiveness to learning, concentration on learning.

My older sister made good grades in every subject because of her studiousness.

8. understudy (ən' dər stə dē)

n. An actor who learns the lines of another actor, especially the star, in order to be ready to substitute if needed.

When the leading lady in the play got sick, her understudy performed well in her place.

NOTA BENE

The word *understudy* starts with the prefix *under-*. Under is both a word and a prefix. When used as a prefix, it can mean “below” as in *underline*, or “lower in level” as in *undergraduate*.

EXERCISE A: SYNONYMS

Write the letter of the best SYNONYM (the word with the meaning most nearly the same as the word in bold-faced type).

1. _____ an eager **understudy**

- a. star b. director c. substitute d. writer

2. _____ to **partition** the room

- a. divide b. enlarge c. paint d. measure

3. _____ the photographer's **studio**

- a. hall b. scrapbook c. room d. kitchen

4. _____ **partial** to cake rather than pie

- a. eating b. favoring c. baking d. refusing

EXERCISE B: MEANING IN CONTEXT

Use these words to fill in the blanks in the following paragraph.

particles

studiousness

partners

particular

The teacher told Gavin and Karla to work as (1) _____ on the next science project. She gave them a box of baking soda, a bottle of vinegar, and a cup. She asked them to put vinegar in the cup and then to sprinkle a few (2) _____ of baking soda over the liquid. Their job was to describe the (3) _____ changes that happened. The teacher knew Gavin and Karla would do a careful job because of their (4) _____ in science class.

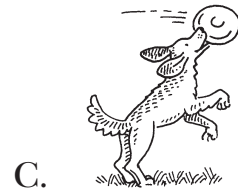

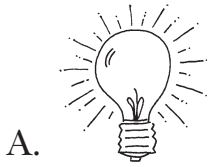

EXERCISE C: EXTEND YOUR VOCABULARY

The noun suffix *-ness*

The key word *studiousness* ends in the suffix *-ness*. *Studiousness* is a noun. You know that many nouns name persons, places, and things. But nouns can also name qualities (like *softness* and *kindness*) and conditions (like *sickness* and *tardiness*). Note that all the preceding names for qualities and conditions are nouns that end in the suffix *-ness*.

The underlined nouns in the questions below name qualities. Look at the pictures. Then answer the questions.

1. Which picture makes you think of darkness? Circle your answer. A B C
2. Which picture makes you think of playfulness? Circle your answer. A B C
3. Which picture makes you think of brightness? Circle your answer. A B C

Now, take away the suffix *-ness* from each underlined noun above.

4. Write the three words that would be left.

5. Which part of speech is each of the three words you wrote? Circle your answer.

A. noun

B. verb

C. adjective

6. When you add the suffix *-ness* to an adjective, what part of speech is the word you make? Circle your answer.

A. noun

B. verb

C. adjective

7. Write a sentence using the noun *studiousness*.

LESSON 6

Different Ways to Serve

The root *serv* as in **serve** means “to help, to serve.” The word **serve** and its root *serv* are similar in spelling and meaning.

The root *vari* as in **varied** means “different, changing.” The word **varied** and its root *vari* are similar in spelling and meaning.

All of the following key words except one start with either the root *serv* or the root *vari*. In each key word, circle the root.

Key Words

deserve

service

variable

variety

server

serviceable

variation

various

Using ROOT CLUES

The roots *serv* (help) and *vari* (different) give you clues about meaning. When you spot one of these roots in a word, you have a key to the word’s meaning. Use the underlined root clues to help you match the following columns:

1. _____ various

A. able to be useful or helpful

2. _____ serviceable

B. helpful acts

3. _____ variation

C. of different kinds

4. _____ service

D. the amount of change or difference

The root clues did not give you complete definitions as the following dictionary listings will. But they got you started by giving you *part* of the meaning. Sometimes that *part* helps you to figure out the word.

SERV (from the Latin word *servire* meaning “to serve, to help”)

*Familiar Words
with Root SERV*

servant
servants
serve
served
serves
serving

*Challenge Words
with Root SERV*

disservice
servile
servitude
undeserved

1. deserve (di zərv')

v. To be worthy of.

Since Amelia had not missed a single chorus practice, she deserved an award for perfect attendance.

2. server (sər' vər)

n. 1. A restaurant worker that serves food.

We asked our server to bring us another basket of bread as we read the menu.

2. The player who serves the ball, as in tennis and volleyball.

Milena is the strongest server of all the girls on the team.

3. A computer that handles the connections for a network of computers.

When the server is down, neither our classroom computer nor the library computer works.

3. service (sər' vəs)

n. Work done for others, helpful acts.

The firefighters perform a valuable service for everyone living in this city.

4. serviceable (sər' və sə bəl)

adj. Useful, helpful, able to be used for a long time.

Victor's hiking boots were still serviceable but too small.

VARI (from the Latin word *varius* meaning “to be different”)

*Familiar Words
with Root VARI*

varied
varies
vary
varying

*Challenge Words
with Root VARI*

invariably
variant
varicolored

5. variable (ver' ē ə bəl)

adj. Likely to change or be different.

The tides are variable during the year because of the position of the sun and the moon.

6. variation (ver ē ā' shən)

n. The result of varying, a change from the normal.

Our class made a chart showing the variation in our town's population over the past twenty years.

7. variety (və rī' ə tē)

n. A collection of different things, an assortment.

Dad and I looked at a variety of small flowering plants before selecting one for the kitchen window.

8. various (ver' ē əs)

adj. Of several different types, not alike.

The dentist asked his assistant for various tools as he completed the work on my filling.

EXERCISE A: SYNONYMS

Write the letter of the best SYNONYM (the word with the meaning most nearly the same as the word in bold-faced type).

1. _____ **variable** temperatures

- a. particular b. changeable c. hot d. delightful

2. _____ being glad for the **service**

- a. information b. change c. help d. question

3. _____ **various** colors in the picture

- a. bright b. different c. numerical d. delicate

4. _____ the **variations** in the papers

- a. holes b. news c. differences d. questionnaires

EXERCISE B: MEANING IN CONTEXT

Use these words to fill in the blanks in the following paragraph.

serviceable

variety

deserves

server

Karen liked a wide (1) _____ of team sports. She was easily the best player on the volleyball team and the strongest

(2) _____. But she also spent time on the basketball team, where she was a (3) _____ player, but not outstanding.

One of her volleyball teammates said, “Karen, our team needs and

(4) _____ more of your time. You are our star player, and you could lead us to a championship. So please quit basketball!”

EXERCISE C: EXTEND YOUR VOCABULARY

The adjective suffix **-ous**

The key word *various* is an adjective. Adjectives describe nouns. Many words that end in *-ous* are adjectives that describe nouns. Examples: *famous* explorers, *spacious* fields, *vigorous* exercise.

Make new words by adding the suffix *-ous* to each of the words that follow. Write the new words on the line.

1. joy _____

2. courage _____

3. danger _____

4. Which adjective that you wrote best describes firefighters?

5. Which adjective that you wrote best describes a very happy person?

6. Which adjective that you wrote best describes boating without a life jacket?

7. Which meaning best fits the suffix *-ous*? Circle your answer.

A. not having

B. having

C. against

8. Write a sentence using the adjective *various*.

LESSON 7

Finishing Easily

The root *eas* as in **ease** means “comfort.” The word **ease** and its root *eas* are similar in spelling and meaning.

The root *fin* as in **finish** means “end.” The word **finish** and its root *fin* are similar in spelling and meaning.

All of the following key words except two start with either the root *eas* or the root *fin*. In each key word, circle the root.

Key Words			
ease	finale	finally	uneasy
easiest	finalist	finite	unfinished

Using ROOT CLUES

The roots *eas* (comfort) and *fin* (end) give you clues about meaning. When you spot one of these roots in a word, you have a key to the word’s meaning. Use the underlined root clues to help you match the following columns:

- | | |
|--------------------------|---|
| 1. _____ <u>easiest</u> | A. a person who reaches the <u>end</u> of a contest |
| 2. _____ <u>finally</u> | B. un <u>comfortable</u> |
| 3. _____ un <u>easy</u> | C. at the <u>end</u> |
| 4. _____ <u>finalist</u> | D. most simple and <u>comfortable</u> |

The root clues did not give you complete definitions as the following dictionary listings will. But they got you started by giving you *part* of the meaning. Sometimes that *part* helps you to figure out the word.

EAS (from the Latin word *adiacens* meaning “lying nearby,” via the French word *aise* meaning “comfort”)

*Familiar Words
with Root EAS*

disease
easily
easy

1. ease (ēz)

n. Comfort, not having to try hard.

After Brooke practiced the dance step for a week, she could do it with ease.

v. To reduce the strain.

When Hector eased up on the rope, he lost the tug-of-war.

*Challenge Words
with Root EAS*

easement
easygoing
uneasily
uneasiness

2. easiest (ē' zē est)

adj. Not difficult at all, most simple.

Because we studied so hard for the last test, it seemed like the easiest one of the year.

3. uneasy (ən ē' zē)

adj. Uncomfortable, not relaxed, worried.

Lucas was uneasy about giving a speech to the class because he had not practiced at home.

FIN (from the Latin word *finis* meaning “end”)

*Familiar Words
with Root FIN*

final
finish
finished
finishes
finishing

4. finale (fi nă' lē)

n. The last part, as of a program or a piece of music.

After the band members performed several popular tunes, they played the school song as their finale.

Challenge Words
with Root FIN

confine
infinite
infinity
refinery
semifinal

5. **finalist** (fī' nə list)

n. A person who is in the last round of a contest.

We all attended the state spelling bee to cheer for Megan, our school's finalist.

6. **finally** (fī' nə lē or fīn' lē)

adv. At last, at the end.

After two days of blizzard conditions, the snow finally stopped and a plow made its way down our road.

7. **finite** (fī' nīt)

adj. Having an end, limited.

Cesar had a finite number of prizes to hand out and was afraid they wouldn't last.

8. **unfinished** (ən fī' nīst)

adj. 1. Incomplete, not finished.

When the time ran out, Jeff had to turn in an unfinished test.

2. Not having any final coating.

Caroline decided to paint the unfinished wood of the picnic table.

NOTA BENE

The words *uneasy* and *unfinished* start with the prefix *un-*, which means “not.” *Un-* is the most frequently used prefix in our language.

EXERCISE A: SYNONYMS

Write the letter of the best **SYNONYM** (the word with the meaning most nearly the same as the word in bold-faced type).

1. _____ the **finite** power of the mayor
a. limited b. endless c. sensational d. questionable
2. _____ thinking about an **unfinished** project
a. excellent b. winning c. late d. incomplete
3. _____ words that **eased** their fear
a. caused b. knew c. reduced d. visited
4. _____ a show with an exciting **finale**
a. scene b. ending c. cast d. star

EXERCISE B: MEANING IN CONTEXT

Use these words to fill in the blanks in the following paragraph.

finalist**easiest****Finally****uneasy**

Sophie greeted her dad by waving an envelope. (1) _____, the letter she had been waiting for had arrived. "One of my stories will be printed in a magazine with student writing! This makes me a (2) _____ for the Best Writer of the Year Award. Last week, I was so (3) _____ because I had no reply from the magazine." "I'm impressed!" her dad said. "I'm glad writing is your (4) _____ subject. It will benefit you all your life."

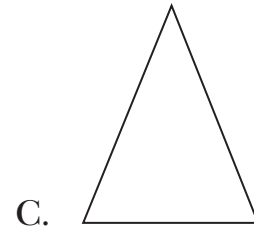

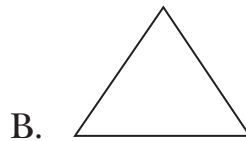

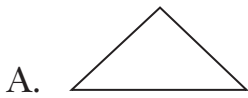

EXERCISE C: EXTEND YOUR VOCABULARY

The more/most suffixes **-er** and **-est**

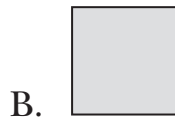

In the key word *easiest*, the suffix **-est** means “most.” The suffix **-er** on the word *easier* means “more.” The suffixes **-er** and **-est** mean “more” and “most” when they are added to adjectives. Examples: *short*, *shorter*, *shortest*; *handy*, *handier*, *handiest*; *steady*, *steadier*, *steadiest*.

The underlined adjectives below end in the suffixes **-er** and **-est**.

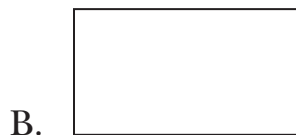

1. Circle the tallest triangle.

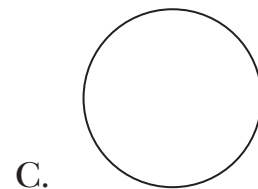

2. Circle the darker square.

3. Circle the larger rectangle.

4. Circle the smallest circle.

5. Circle the suffix that is used to compare only *two* items.

A. **-er**

B. **-est**

6. Write a sentence using the adjective *easiest*.

LESSON 8

Reviewing Lessons 5–7

EXERCISE A: MATCHING

Match each root with its meaning.

- | | |
|----------------|------------------------|
| 1. _____ serv | A. comfort |
| 2. _____ studi | B. end |
| 3. _____ part | C. different, changing |
| 4. _____ eas | D. help, serve |
| 5. _____ fin | E. piece, part |
| 6. _____ vari | F. learn, study |

In Exercise C of Lessons 5, 6, and 7 you learned about these suffixes. Match the columns.

- | | |
|----------------|----------------|
| 7. _____ -ness | G. more |
| 8. _____ -ous | H. most |
| 9. _____ -er | I. having |
| 10. _____ -est | J. noun suffix |

11. Write the suffix that you see on this word: *various*.

12. Write the two suffixes that you see on this word: *studiousness*.

EXERCISE B: SORTING

Sort these words, listing each one under its root. When you finish, add another word that goes with each group. (Look back at the lists of familiar and challenge words for ideas.)

partner	ease	service	various
finite	serviceable	studio	particle
partial	finale	variable	finalist
easiest	variation	partition	deserve
studiousness	server	understudy	uneasy
variety	unfinished	particular	finally

1. FIN	2. VARI	3. PART
4. EAS	5. SERV	6. STUDI

EXERCISE C: VOCABULARY FROM YOUR TEXTBOOKS

Some of the subjects you study in school have specific words connected with them. Read the four words below. Then use them to answer the following questions.

particles**partition****variety****server**

1. Which word are you likely to see as you read about the kinds of trees growing in different climates?

2. As you read about how North America was divided into countries, states, and provinces, what word will you probably see?

3. Which word might appear in a chapter about how computers work together?

4. In science class as you read about tiny bits of matter found in the air, which word are you likely to see?

EXERCISE D: RHYMING RIDDLES

Write the letter of the answer for each riddle.

A. Article particle**B. Partial marshal****C. Finite light****D. Bees' disease**

1. _____ What do you call a sickness of creatures that make honey?
2. _____ What do you call a glowing match?
3. _____ What do you call a tiny scrap of a magazine story?
4. _____ What do you call a sheriff who works only part-time?

LESSON 9

Special Families

The root *famil* as in ***family*** means “household or family; closely known.” The word ***family*** and its root *famil* are similar in spelling and meaning.

The root *speci* as in ***special*** means “of a particular type or kind.” The word ***special*** and its root *speci* are similar in spelling and meaning.

All of the following key words start with the root *famil* or the root *speci*. In each key word, circle the root.

Key Words

familiar

familiarize

specialty

specific

familiarity

specialist

species

specify

Using ROOT CLUES

The roots *famil* (closely known) and *speci* (particular kind) give you clues about meaning. When you spot one of these roots in a word, you have a key to the word’s meaning. Use the underlined root clues to help you match the following columns:

1. _____ familiar

A. a person with a particular kind of knowledge

2. _____ specialist

B. well known and close

3. _____ familiarize

C. to point out a particular kind

4. _____ specify

D. to get to know

The root clues did not give you complete definitions as the following dictionary listings will. But they got you started by giving you *part* of the meaning. Sometimes that *part* helps you to figure out the word.

FAMIL (from the Latin word *familia* meaning “household, family”)*Familiar Words
with Root FAMIL*

families
family

*Challenge Words
with Root FAMIL*

familial
unfamiliar

1. familiar (fə mil' yər)

adj. Often seen or heard before, well known.

For vacation reading, Zaida chose several books by familiar authors.

2. familiarity (fə mi lē yer' ə tē)

n. The condition of easy recognition or close friendship.

Kim treated her visiting cousins with familiarity and affection.

3. familiarize (fə mil' yə rīz)

v. To get to know, to acquaint, to get accustomed to.

After Amir moved, he tried to familiarize himself with the new neighborhood quickly.

**SPECI** (from the Latin word *species* meaning “a particular type or kind”)*Familiar Words
with Root SPECI*

special

*Challenge Words
with Root SPECI*

specialize
specifically
specification
specimen

4. specialist (spesh' əl ist)

n. A person with special knowledge or experience in a particular area.

At our school, the literacy specialist helps students who are struggling with reading.

5. specialty (spesh' əl tē)

n. A particular subject or area about which a person is an expert.

Bruce's specialty is insects because he draws, collects, and reads about them all the time.

6. species (spē' shēz or spē' sēz)

n. A group of plants or animals that share common features.

The rain forest is home to hundreds of different species of frogs.

**NOTA BENE**

The English word *species* and the Latin word *species* are exactly the same. The English word *various* and the Latin word *varius* differ by only one letter. Some people call these words from different languages that look similar and come from the same root “cognates.” It is interesting to note that the word *species* has remained exactly the same for over two thousand years.

7. specific (spi sif' ik)

adj. Clearly stated, detailed, exact.

Our soccer coach gave specific directions, telling us just how to keep the ball moving.

8. specify (spes' ə fī)

v. To describe or explain clearly, to name exactly.

Mom did not specify which kind of fruit she wanted for the pie.

EXERCISE A: SYNONYMS

Write the letter of the best **SYNONYM** (the word with the meaning most nearly the same as the word in bold-faced type).

1. _____ to **familiarize** the class with

- a. supply b. attend c. leave d. acquaint

2. _____ visited a **specialist** in coins

- a. writer b. expert c. speaker d. beginner

3. _____ a comfortable **familiarity**

- a. closeness b. friend c. distance d. blanket

4. _____ **specifying** the medicine he wanted

- a. picturing b. remembering c. naming d. forgetting

EXERCISE B: MEANING IN CONTEXT

Use these words to fill in the blanks in the following paragraph.

specific

familiar

specialty

species

Along the river, Agnes spotted a brown bird with a black beak that she thought she had seen before. It looked very (1) _____. But she was not sure what (2) _____ it was. Birds were her (3) _____, so Agnes liked to identify each one she saw. She hunted through her bird guide, which gave (4) _____ information about a variety of birds living in her state. When she found a picture of the brown bird, she quickly learned its name.

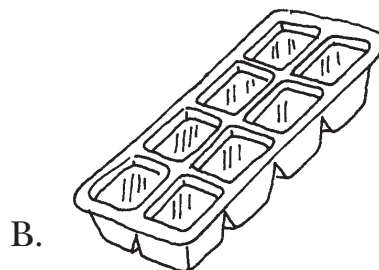

EXERCISE C: EXTEND YOUR VOCABULARY

The verb suffix *-fy/-ify*

The key word *specify* ends in the suffix *-fy*. *Specify* is a verb. You know that some verbs like *run*, *jump*, and *swim* show physical action. Verbs can also show other kinds of action. Examples: *notify* (to tell, to make known), *falsify* (to change so as to make false), *fortify* (to make stronger or more secure).

The underlined verbs in the questions below express three kinds of action. Look at the pictures. Then answer the questions.

1. Which picture makes you think of the verb terrify? Circle your answer. A B C
2. Which picture makes you think of the verb beautify? Circle your answer. A B C
3. Which picture makes you think of the verb solidify? Circle your answer. A B C

Match the verbs that end in *-fy/-ify* with their definitions.

- | | |
|------------------|----------------------|
| 4. _____ satisfy | A. to make clear |
| 5. _____ clarify | B. to make united |
| 6. _____ unify | C. to make satisfied |

7. Circle the meaning that best fits the verb suffix *-fy/-ify*.

- | | | |
|-----------|------------|------------|
| A. to fix | B. to fill | C. to make |
|-----------|------------|------------|

8. Write a sentence using the verb *specify*.

LESSON 10

Action in Office

The root *act* as in **acted** means “to do, to act.” **Act** is both a word and a root. The word **act** and the root *act* are the same in spelling and meaning.

The root *offic* as in **office** means “duty, work.” The word **office** and its root *offic* are similar in spelling and meaning.

All of the following key words except one start with the root *act* or the root *offic*. In each key word, circle the root.

Key Words

active

actor

enact

official

activity

actually

officer

officiate

Using ROOT CLUES

The roots *act* (act) and *offic* (work) give you clues about meaning. When you spot one of these roots in a word, you have a key to the word’s meaning. Use the underlined root clues to help you match the following columns:

1. _____ officer

A. to work as a referee or umpire

2. _____ officiate

B. to act on making an idea into a law

3. _____ actor

C. a person who works to keep others safe

4. _____ enact

D. a person who acts in movies

The root clues did not give you complete definitions as the following dictionary listings will. But they got you started by giving you *part* of the meaning. Sometimes that *part* helps you to figure out the word.

ACT (from the Latin word *actio* meaning “action, doing”)*Familiar Words
with Root ACT*

act
acted
acting
action
acts
actual

*Challenge Words
with Root ACT*

activate
actuality
inactive
reaction
reenactment

1. active (ak' tiv)

adj. 1. Having an interest in; participating in something.

Luis dropped out of the club, but his brother is still an active member.

2. Moving about, doing something.

A surprising number of animals are active at night, including opossums, raccoons, and porcupines.

**2. activity** (ak tiv' ə tē)

n. 1. Something one does besides schoolwork.

The activity that Spencer likes best is playing word games on the Internet.

2. Motion, movement.

The food booths had a great deal of activity during last Saturday's fall festival.

**3. actor** (ak' tər)

n. A person who plays roles in movies, television shows, and on stage; a performer.

That actor played a pilot in one movie and a detective in another.

4. actually (ak' chü əl lē)

adv. Really, in fact.

I thought I would finish the thirty-minute test in fifteen minutes, but I actually took the entire half hour.

5. enact (i nakt')

v. 1. To make into law.

Our congressman worked to enact a bill that would bring more money to the schools.

2. To act out a part in a play.

Kit will enact the role of Dorothy in *The Wizard of Oz*.

OFFIC (from the Latin word *officium* meaning “duty, work”)

*Familiar Words
with Root OFFIC*

office

offices

*Challenge Words
with Root OFFIC*

officeholder

unofficial

unofficially

6. officer (ä' fə sər)

n. 1. A person with an important position in a particular group, such as a club or the armed services.

The Student Council has four officers—president, vice-president, secretary, and treasurer.

2. A policeman or policewoman.

At the car accident, one officer directed traffic and another talked to the two drivers.

**7. official** (ə fi' shəl)

n. A person who holds an office or is in a position of authority such as a mayor, a referee, or a diplomat.

Our top city official is Mayor Ramos.

adj. Decided with proper authority.

The referee made it official—the team scored a touchdown.

**8. officiate** (ə fi' shē āt)

v. To supervise a special event or a game.

Our English teacher, Ms. Mason, will officiate at the state spelling bee.

EXERCISE A: SYNONYMS

Write the letter of the best **SYNONYM** (the word with the meaning most nearly the same as the word in bold-faced type).

1. _____ the **officials** for the game
a. players b. teams c. referees d. cheerleaders
2. _____ **actually** found a way
a. gradually b. quietly c. fearfully d. really
3. _____ the **actor** at the front of the stage
a. performer b. director c. teacher d. writer
4. _____ to **enact** into law
a. read b. make c. choose d. familiarize

EXERCISE B: MEANING IN CONTEXT

Use these words to fill in the blanks in the following paragraph.

activity**officer****officiate****active**

Elections were coming up for offices in the Chess Club. Tess thought she would like to become an (1) _____, maybe even *president*.

She had been an (2) _____ member of the club for over a year. Playing chess was her favorite after-school (3) _____.

Since she had watched the president (4) _____ at club meetings and chess tournaments, Tess was sure she could do the job. But could she get enough votes to be elected?

EXERCISE C: EXTEND YOUR VOCABULARY

The adjective suffix **-ive**

The key word *active* is an adjective. It ends in the suffix *-ive*. This suffix tells you that someone or something is doing the action. An *active* person describes someone who *acts* or participates.

Look at how other adjectives that end in *-ive* are related to their roots.

The adjective *cooperative* describes someone who *cooperates*.

The adjective *creative* describes someone who *creates*, invents, or has original ideas.

The adjective *talkative* describes someone who *talks* a lot.

Make new words by adding the suffix *-ive* to the following words. Write each new word on the line.

1. attract _____

2. support _____

3. impress _____

4. invent _____

5. possess _____

6. Look back at the five words you wrote. Could they be used to describe people?
Circle your answer.

A. yes

B. no

7. Write sentences using two of the words you wrote.

Taking What Is Stated

The root *capt* as in **capture** means “to take, to catch.” The word **capture** and its root *capt* are similar in spelling and meaning.

The root *stat* as in **state** means “standing position; state, condition.” The word **state** and its root *stat* are similar in spelling and meaning.

All of the following key words except two start with the root *capt* or the root *stat*. In each key word, circle the root.

Key Words			
captivate	captivity	statement	statue
captive	recapture	stationary	understate

Using ROOT CLUES

The roots *capt* (take) and *stat* (stand) give you clues about meaning. When you spot one of these roots in a word, you have a key to the word’s meaning. Use the underlined root clues to help you match the following columns:

- | | |
|----------------------------|--|
| 1. _____ <u>captive</u> | A. to <u>take</u> again |
| 2. _____ <u>statement</u> | B. <u>standing</u> still |
| 3. _____ <u>recapture</u> | C. a person <u>taken</u> under control by others |
| 4. _____ <u>stationary</u> | D. a declaration of where one <u>stands</u> on a subject |

The root clues did not give you complete definitions as the following dictionary listings will. But they got you started by giving you *part* of the meaning. Sometimes that *part* helps you to figure out the word.

CAPT (from the Latin word *captura* meaning “to take, to capture”)

Familiar Words
with Root CAPT

capture
captured
captures
capturing

Challenge Words
with Root CAPT

caption
captivating
captivation
captor

1. **captivate** (kap' tə vāt)

v. To interest greatly, to capture the attention or affection of, to charm.

Sue was captivated by the mystery novel.

2. **captive** (kap' tiv)

n. A person who is taken or captured; someone caught and held as a prisoner.

After the knight and his followers lost the battle, they were taken as captives to the queen.

3. **captivity** (kap tiv' i tē)

n. The condition of being a captive, of not being free.

The tiger that we saw at the zoo is the largest one in captivity.

4. **recapture** (rē kap' chər)

v. To take or capture again, to bring back.

On Bonnie's second trip to camp, she could not recapture the thrill she had felt on her first trip.

NOTA BENE

The key word *recapture* starts with the prefix *re-*. This prefix means “again; back.” Both of these meanings appear in the definition of *recapture*: to take or capture *again*, to bring *back*. The prefix *re-* is the second most common prefix in the English language; *un-* is the first.

STAT (from the Latin word *status* meaning “standing position; state”)

*Familiar Words
with Root STAT*

state
stated
states
stating
station

*Challenge Words
with Root STAT*

overstate
reinstate
static
statuesque
status

5. statement (stāt' mēnt)

n. Spoken or written words, expressing an idea.

The students worked to make the statement of the purpose of their project very clear.

6. stationary (stā' shən er ē)

adj. Not moving, motionless, fixed in place.

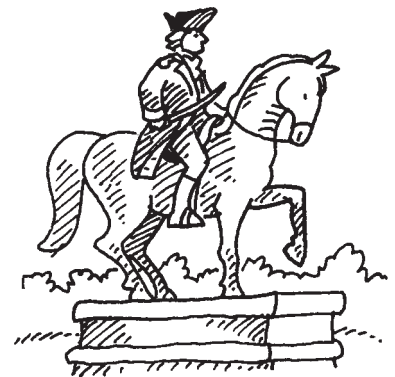

The train remained stationary while the passengers boarded.

7. statue (sta' chü)

n. An image carved, cast, or molded in various materials such as stone, wood, or metal.

The statue of George Washington stood at the entrance to the park.

8. understate (ən dər stāt')

v. To present as less important than it really is, to make little of, to deny the seriousness of.

Bella was so brave that she understated the amount of pain she felt from her broken arm.

EXERCISE A: SYNONYMS

Write the letter of the best SYNONYM (the word with the meaning most nearly the same as the word in bold-faced type).

1. _____ a **captivating** character

- a. recent b. difficult c. boring d. charming

2. _____ **understating** the importance of

- a. making b. questioning c. denying d. finding

3. _____ the **stationary** bicycle rack

- a. rusty b. repaired c. serviceable d. motionless

4. _____ food for the **captive**

- a. server b. prisoner c. official d. actor

EXERCISE B: MEANING IN CONTEXT

Use these words to fill in the blanks in the following paragraph.

recapture

captivity

statement

statue

Luke caught a wild horse and put it in the corral. But it couldn't stand its (1) _____ and soon jumped the fence and escaped. So Luke said to his friend Rosie, "Let's (2) _____ that horse."

But Rosie stayed as still as a (3) _____. "I don't want to bring that horse back here," she told Luke.

Her (4) _____ made Luke stop and stare at her. She had chased wild horses with him before. What was different now?

EXERCISE C: EXTEND YOUR VOCABULARY

The verb suffix **-ate**

When the suffix *-ate* is added to a noun like *captive*, it forms a verb, *captivate*. Look at how the nouns *office* and *motive* become verbs when *-ate* is added to them—*officiate* and *motivate*.

But be careful when you see the letters of this suffix. They may not be a suffix. The past tense of *eat* is **ate**, and this is a complete word. Example: He *ate* a sandwich. In addition, the letters *a*, *t*, and *e* form a very common ending to many familiar one-syllable words, such as *gate*, *late*, *mate*, *skate*, *hate*. In these words the letters *a*, *t*, and *e* have no special meaning.

Sort the following words into two groups, according to whether or not *ate* is a suffix.

educate	plate	create	rotate	punctuate
decorate	crate	fate	date	navigate

Words in which -ate is a suffix

Words in which -ate is not a suffix

LESSON 12

Reviewing Lessons 9–11

EXERCISE A: MATCHING

Match each root with its meaning.

- | | |
|---|--------------------------|
| 1. _____ famil | A. to do, to act |
| 2. _____ speci | B. stand |
| 3. _____ act | C. known closely, family |
| 4. _____ offic | D. to take, to catch |
| 5. _____ stat | E. work |
| 6. _____ capt | F. particular kind, type |
| 7. Which root above is also a word? _____ | |

In Exercise C of Lessons 9, 10, and 11, you learned about these suffixes. Match the columns.

- | | |
|---|--|
| 8. _____ -ive | G. add to the word <i>captive</i> to make a verb |
| 9. _____ -fy/-ify | H. add to the root <i>speci</i> to make a verb |
| 10. _____ -ate | I. add to the word <i>attract</i> to make an adjective |
| 11. Write the verb suffix that you see on this word: <i>beautify</i> . _____ | |
| 12. Write the verb suffix that you see on this word: <i>officiate</i> . _____ | |

EXERCISE B: SORTING

Sort these words, listing each one under its root. When you finish, add another word that goes with each group. (Look back at the lists of familiar and challenge words for ideas.)

captive	familiar	actor	officiate
statement	species	officer	understate
specify	activity	enact	actually
familiarize	official	specific	recapture
active	specialist	statue	specialty
captivate	stationary	captivity	familiarity

1. SPECI

2. ACT

3. STAT

4. CAPT

5. FAMIL

6. OFFIC

EXERCISE C: VOCABULARY FROM YOUR TEXTBOOKS

Some of the subjects you study in school have specific words connected with them. Read the four words below. Then use them to answer the following questions.

officers**species****actor****officials**

1. Which word are you most likely to meet when reading about battles won by famous generals?

2. As your class prepares a play for the school, what word will you probably hear?

3. What word will you meet as you read about the mayor, governor, and other state leaders?

4. As you write a report about the different plants and animals living in a desert, what word might you use?

EXERCISE D: RHYMING RIDDLES

Write the letter of the answer for each riddle.

A. Specified ride B. Stationary ferry C. Super trooper D. Passive captive

1. _____ What do you call a motionless boat that carries cars and people?
2. _____ What do you call a wonderful officer?
3. _____ What do you call an inactive zoo animal?
4. _____ What do you call the bus you have been told to take?

LESSON 13

Grateful for Classes

The root *class* as in **classes** means “group, class.” **Class** is a word as well as a root. The word **class** and the root *class* are the same in spelling and meaning.

The root *grat* as in **grateful** means “thankful.” The word **grateful** and its root *grat* are similar in spelling and meaning.

All of the following key words except one start with either the root *class* or the root *grat*. In each key word, circle the root.

Key Words

classic

classification

gratify

gratuity

classical

classify

gratitude

ungrateful

Using ROOT CLUES

The roots *class* (group) and *grat* (thanks) give you clues about meaning. When you spot one of these roots in a word, you have a key to the word’s meaning. Use the underlined root clues to help you match the following columns:

1. _____ classify

A. not thankful

2. _____ classic

B. thanks

3. _____ ungrateful

C. a book that is part of a group of lasting stories

4. _____ gratitude

D. to put into groups

The root clues did not give you complete definitions as the following dictionary listings will. But they got you started by giving you *part* of the meaning. Sometimes that *part* helps you to figure out the word.

CLASS (from the Latin word *classis* meaning “group, class”)*Familiar Words
with Root CLASS*

class
 classed
 classes
 classing

*Challenge Words
with Root CLASS*

classifiable
 classified
 classless
 classy
 unclassified

1. classic (klas' ik)

n. A work of art, music, or literature that has been valued by people for a long time.

The books in the *Narnia* series by C. S. Lewis are classics that readers over many years have enjoyed.

2. classical (klas' i kəl)

adj. 1. Related to Greek or Roman language or culture.

The study of word histories and classical roots greatly improved the students' vocabularies.

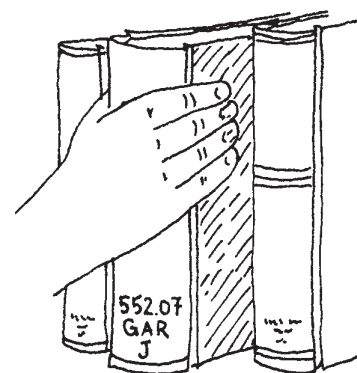

2. Describing a type of music that follows certain rules and standards that were created more than a hundred years ago.

Vince enjoyed listening to classical music, especially pieces with violins.

3. classification (klas ə fə kā' shən)

n. An arrangement, a division into groups or classes.

One system used for the classification of library books is called the Dewey Decimal System.

**4. classify** (klas' ə fi)

v. To sort into groups or classes.

You can classify rocks into three categories: sedimentary, igneous, and metamorphic.

GRAT (from the Latin word *gratus* meaning “pleasing, thankful”)

*Familiar Words
with Root GRAT*

grateful
gratefully

*Challenge Words
with Root GRAT*

gratification
gratis
gratuitous
ingratitude

5. gratify (grat' ə fī)

v. To satisfy, to please.

Cody's success gratified all the people who were rooting for him.

6. gratitude (grat' ə tūd)

n. Thanks, a feeling of thankfulness.

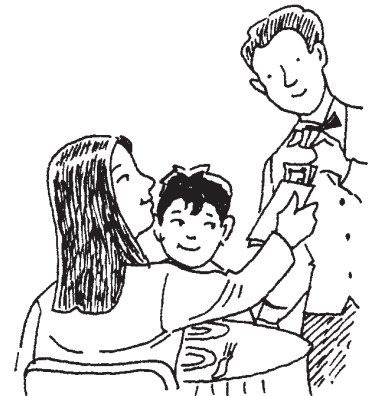

All of the science club members signed the card to express their gratitude to Ms. Hart, the club advisor.

7. gratuity (gra tū' i tē)

n. A tip, money given in thanks for service.

Because the waiter had been so attentive and friendly, my aunt gave him a generous gratuity.

8. ungrateful (ən grāt' fəl)

adj. Not thankful, unappreciative.

To avoid seeming ungrateful for the gift, Greta wrote a thank-you note the next day.

EXERCISE A: SYNONYMS

Write the letter of the best **SYNONYM** (the word with the meaning most nearly the same as the word in bold-faced type).

1. _____ a generous **gratuity**

- a. graduate b. thought c. person d. tip

2. _____ acting in an **ungrateful** way

- a. unfriendly b. uneasy c. useful d. unappreciative

3. _____ a word with a **classical** root

- a. Latin b. Swiss c. Chinese d. Indian

4. _____ to **gratify** his desire for a pet dog

- a. notice b. satisfy c. build d. specify

EXERCISE B: MEANING IN CONTEXT

Use these words to fill in the blanks in the following paragraph.

classification

gratitude

classic

classify

Sierra said to Zach, “*Charlotte’s Web* was good to the last page. That book deserves to be called a (1) _____.”

Zach looked up from his science homework and asked, “How would you (2) _____ the spider Charlotte? Is she an insect?”

“No,” said Sierra. “That (3) _____ isn’t correct. A spider is an arachnid, not an insect.”

“Thanks,” said Zach, with a smile of (4) _____. “That is the last bit of information I needed for my science homework.”

EXERCISE C: EXTEND YOUR VOCABULARY

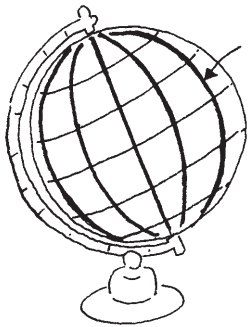

The noun suffix **-tude**

The key word *gratitude* ends in the suffix *-tude*. *Gratitude* is a noun. So are most other words that end in the suffix *-tude*. Examples: *attitude*, *solitude*, *fortitude*.

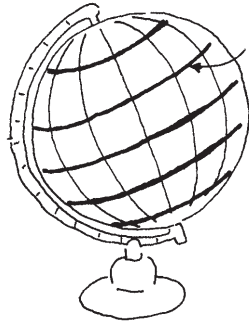

From finding locations on a map, you probably know two more words that end in *-tude*. They are *longitude* and *latitude*. The lines of longitude run north and south. The lines of latitude run east and west. The measurements of longitude and latitude help people describe exact locations.

Words that end in the suffix *-tude* can also tell about height and size. Examples: *altitude* (how high), *multitude* (how many), *magnitude* (how large).

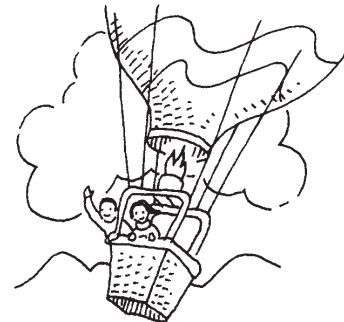

Look at the pictures. Then fill in the lines below.

A.

B.

C.

1. Write the letter of the picture that makes you think of the word latitude. _____
2. Write the letter of the picture that makes you think of the word altitude. _____
3. Write the letter of the picture that makes you think of the word longitude. _____
4. Write a sentence using the noun *gratitude*.

LESSON 14

Likely to Be Well Organized

The root *organ* as in **organize** means “tool, instrument.” The word **organ** and the root *organ* are spelled exactly alike. Their meanings are related.

The root *prob* as in **probably** means “to test or prove.” The word **probably** and its root *prob* are similar in spelling and meaning.

All of the following key words except one start with either the root *organ* or the root *prob*. In each key word, circle the root.

Key Words

disorganized

organism

organization

probable

organ

organist

probability

probe

Using ROOT CLUES

The roots *prob* (test or prove) and *organ* (instrument) can give you clues about meaning. When you spot one of these roots in a word, you have a key to the word’s meaning. Use the underlined root clues to help you match the following columns:

1. _____ organ

A. likely to prove true

2. _____ probe

B. a person who plays a large musical instrument

3. _____ probable

C. to investigate and try to prove

4. _____ organist

D. a large musical instrument

The root clues did not give you complete definitions as the following dictionary listings will. But they got you started by giving you *part* of the meaning. Sometimes that *part* helps you to figure out the word.

ORGAN (from the Greek word *organon* meaning “instrument, tool”)*Familiar Words
with Root ORGAN*

organize
organized
organizes
organizing

*Challenge Words
with Root ORGAN*

organic
reorganize
reorganization

1. disorganized (dis or' gə nīzd)

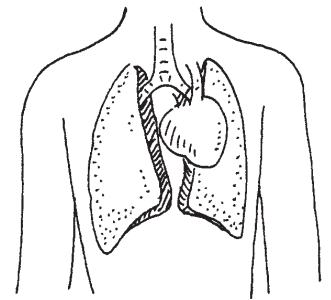

adj. Without structure, untidy.

Teddy's notebook was disorganized, with math, science, and spelling papers all mixed together.

2. organ (or' gən)

n. 1. A part of a plant or animal that performs a special job.

The heart and lungs are important organs of the human body.

2. A musical instrument with a keyboard and many pipes through which air moves to make different tones.

Barry knew it would take years of practice to learn to play the organ well.

3. organism (or gə niz' əm)

n. Any plant or animal with parts that work together in a structured way to support life.

Mia looked through the microscope at the living organisms in a drop of pond water.

**4. organist** (or' gə nist)

n. A person who plays the organ.

When the graduates lined up at the entrance to the auditorium, the organist started playing a familiar march.

5. organization (or gə ni zā' shən)

n. 1. Structure; the way the parts fit into a whole.

Sharon's outline showed the organization of her ideas for the science report.

2. A group of people who work together for a particular purpose, a club.

The room was completely filled for the first meeting of the Parent-Teacher Organization.

PROB (from the Latin word *probare* meaning "to test, to prove")

*Familiar Words
with Root PROB*

probably
probation

6. probability (prəb ə bil' ə tē)

n. Likelihood; good chance of proving true.

With so many dark clouds in the sky, there is a strong probability that it will rain today.

*Challenge Words
with Root PROB*

improbable
probationary

7. probable (prəb' ə bəl)

adj. Not certain but reasonably sure; likely.

The plane may be a little late, but according to the schedule the probable time of arrival is noon.

8. probe (prōb)

n. A careful investigation, often asking about honesty or truthfulness.

The city council is conducting a probe to determine why the parks are not being cared for.

v. To examine, look into, inquire about.

We probed the mound with a stick to see how many ants it contained.

EXERCISE A: SYNONYMS

Write the letter of the best SYNONYM (the word with the meaning most nearly the same as the word in bold-faced type).

1. _____ studying the **organism**

- a. water b. structure c. science d. plant or animal

2. _____ a **disorganized** room

- a. familiar b. untidy c. partitioned d. specific

3. _____ to **probe** the cause of the accident

- a. deny b. forget c. look into d. repeat

4. _____ a strong **probability**

- a. feeling b. likelihood c. disagreement d. connection

EXERCISE B: MEANING IN CONTEXT

Use these words to fill in the blanks in the following paragraph.

organ

organist

probable

organization

Before the baseball game, the (1) _____ was nervous. She had been invited by the team (2) _____ to play the national anthem before the game began. She knew hundreds of people would be listening. Although she was a little worried about making a mistake, she knew this wasn't very (3) _____ because she was an excellent player. Now the clock showed it was time to begin. She sat down at the (4) _____. She was ready to play her best.

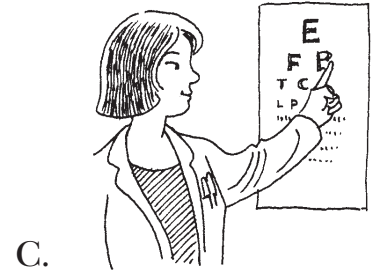

EXERCISE C: EXTEND YOUR VOCABULARY

The noun suffix *-ist*

The key word *organist* ends in the suffix *-ist*. This suffix means “a person who makes, does, or is skilled at.”

Read the first three words listed below that end in the noun suffix *-ist*. Look at the pictures. On the line after each word, write the letter of the matching picture.

1. chemist _____

2. optometrist _____

3. florist _____

Add the suffix *-ist* to each word below. Write the new word that you make on the line.

4. art _____

5. novel _____

6. tour _____

7. Which word names a person who writes fiction? _____

8. Which word names a person who paints pictures? _____

9. Which word names a person who travels to see new places? _____

10. Write a sentence in which you use the word *organist*.

LESSON 15

Locating Technical Skills

The root *loc* as in *locate* means “place.” The word *locate* and its root *loc* are similar in spelling and meaning.

The root *techn* as in *technical* means “practical skill.” The word *technical* and its root *techn* are similar in spelling and meaning.

All of the following key words except one start with either the root *loc* or the root *techn*. In each key word, circle the root.

Key Words

local

locomotion

technicality

technique

location

relocate

technician

technology

Using ROOT CLUES

The roots *loc* (place) and *techn* (practical skill) give you clues about meaning. When you spot one of these roots in a word, you have a key to the word’s meaning. Use the underlined root clues to help you match the following columns:

1. _____ location

A. to move to a new place

2. _____ relocate

B. a person with practical skills

3. _____ technician

C. a place

4. _____ technology

D. the use of science for practical purposes

The root clues did not give you complete definitions as the following dictionary listings will. But they got you started by giving you *part* of the meaning. Sometimes that *part* helps you to figure out the word.

LOC (from the Latin word *locus* meaning “place”)

Familiar Words with Root LOC

locate
located
locates
locating

Challenge Words with Root LOC

locale
locality
localization
localize
locomotive

1. **local** (lō' kəl)

adj. 1. Having to do with a particular place, especially close to where a person lives.

In the summer, we go to the farmers' market to buy local corn, strawberries, and tomatoes.

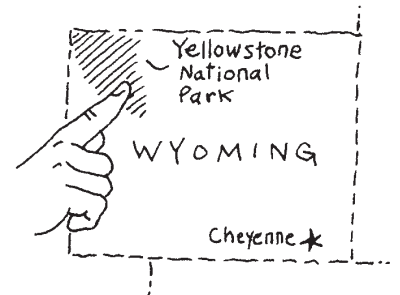

2. Describing a train or bus that makes most stops along its route.

To go to Allen Square, be sure you catch the local train because the express train will not stop there.

2. **location** (lō kā' shən)

n. The place where something is.

On the map of Wyoming, Dana pointed to the exact location of Yellowstone National Park.

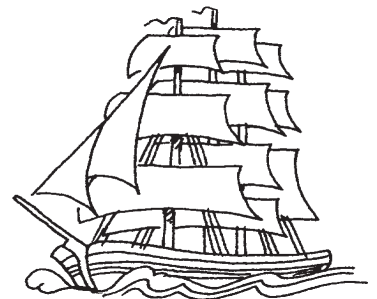

3. **locomotion** (lō kə mō' shən)

n. 1. The act of moving from place to place, travel.

One hundred fifty years ago, huge sailing ships were a common means of locomotion.

2. The ability to move from place to place.

Animals use different forms of locomotion, such as swimming, flying, and walking.

4. relocate (rē lō' kāt)

v. To move from one place of living, or doing business, to another.

To add more tables, Mr. Jacobs relocated his ice-cream shop to a larger space just down the street.

TECHN (from the Greek word *techne* meaning "art, skill")

*Familiar Words
with Root TECHN*

technical
technically

5. technicality (tek ni kal' i tē)

n. A small point or minor detail.

After showing us the important steps for operating the new television set, the salesman explained a few technicalities.

*Challenge Words
with Root TECHN*

technological
technologically
technologist

6. technician (tek nish' ən)

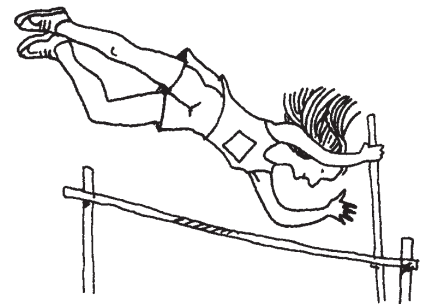

n. A person who does skilled work in a particular occupation.

When I was having problems with my hard drive, I called a computer technician.

**7. technique** (tek nēk')

n. The method by which skills are used to reach a goal.

The pole-vaulter practiced a new technique for getting herself over the bar.

**8. technology** (tek nāl' ə jē)

n. The use of science and engineering to do practical things.

The town was looking for technology that would improve the quality of the drinking water.

EXERCISE A: SYNONYMS

Write the letter of the best SYNONYM (the word with the meaning most nearly the same as the word in bold-faced type).

1. _____ deciding to **relocate**

- a. search b. move c. classify d. return

2. _____ stopped because of a **technicality**

- a. sign b. motive c. statement d. detail

3. _____ a **local** market

- a. neighborhood b. state c. national d. international

4. _____ using advanced **technology**

- a. service b. book c. process d. numeral

EXERCISE B: MEANING IN CONTEXT

Use these words to fill in the blanks in the following paragraph.

locomotion

locations

technician

technique

When Jill learned that frogs use two forms of (1) _____, hopping and swimming, she wanted to compare their speed in each form. During science lab, she asked the lab (2) _____, “What (3) _____ will measure how fast a frog can hop or swim?”

He answered, “That’s an interesting question. The speeds will be different in different (4) _____. Let’s see how you can do this.”

EXERCISE C: EXTEND YOUR VOCABULARY

A pair of roots

In Exercise C, you usually study a suffix. You have often looked at words composed of a root and a suffix. In this lesson, however, you will study a word composed of two roots.

1. Which key word is made from two roots? Circle your answer.

- A. relocate B. locomotion C. technique

2. Write the root that means “place.” _____

3. Write the root that means “move.” _____

4. Write a sentence using this key word made from two roots.

5. Write a sentence telling what *technique* you use to study for a test.

6. If your family had to *relocate*, where would you want to move? Name and describe the place, and tell why you would like to live there.

LESSON 16

Reviewing Lessons 13–15

EXERCISE A: MATCHING

Match each root with its meaning.

- | | |
|----------------|--------------------|
| 1. _____ loc | A. thanks |
| 2. _____ techn | B. group, kind |
| 3. _____ organ | C. place |
| 4. _____ class | D. practical skill |
| 5. _____ grat | E. test, prove |
| 6. _____ prob | F. instrument |

7. Write the two roots listed above that are also words.

8. Write the suffix you see on these two words: *gratify*, *classify*. _____

9. Write the two roots that you see in this word: *locomotion*.

In Exercise C of Lessons 13 and 14, you learned about the suffixes *-tude* and *-ist*.

10. Write the suffix that appears on words that refer to a person. _____

11. Write the suffix that is used on words that describe exact locations. _____

12. What part of speech are most words that end in *-tude* and *-ist*? 62

EXERCISE B: SORTING

Sort these words, listing each one under its root. When you finish, add another word that goes with each group. (Look back at the lists of familiar and challenge words for ideas.)

probe	location	disorganized	gratify
local	classic	technology	probability
organization	technician	ungrateful	classify
gratitude	organ	technicality	organist
classical	relocate	locomotion	gratuity
technique	probable	classification	organism

1. GRAT

2. CLASS

3. ORGAN

4. LOC

5. TECHN

6. PROB

EXERCISE C: VOCABULARY FROM YOUR TEXTBOOKS

Some of the subjects you study in school have specific words connected with them. Read the four words below. Then use them to answer the following questions.

organisms**probability****technician****classification**

1. Which word are you most likely to meet in a math problem about chance?

2. Which word might be in a chapter about occupations in the science field?

3. Suppose you are reading about how books are arranged in the library. Which word would you be likely to meet?

4. When you read about how flu travels from one person to another, what word might you see?

EXERCISE D: RHYMING RIDDLES

Write the letter of the answer for each riddle.

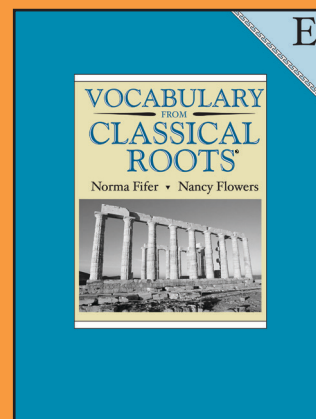

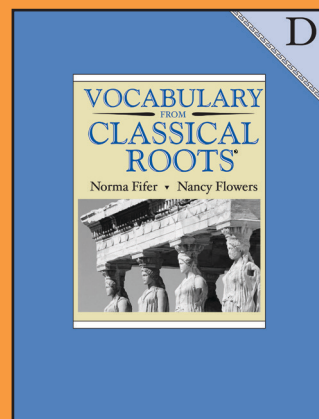

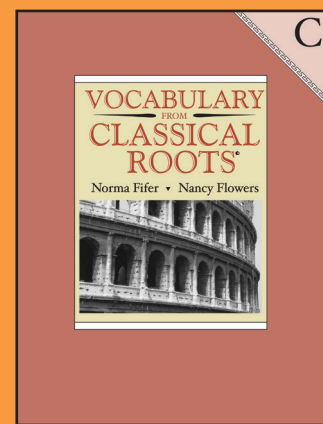

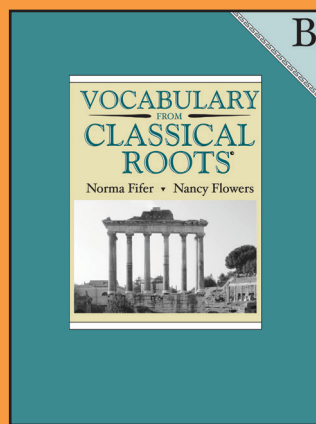

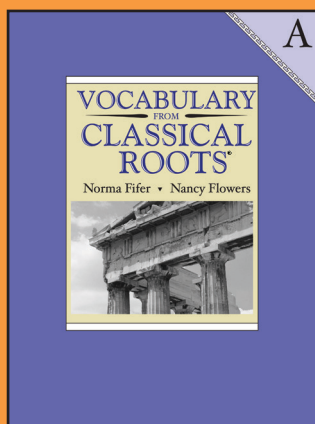

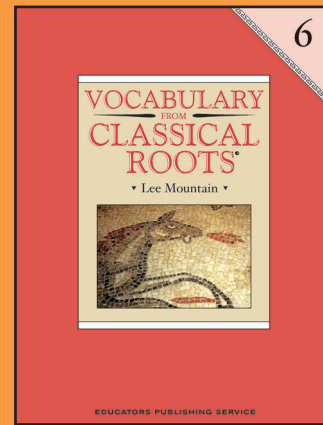

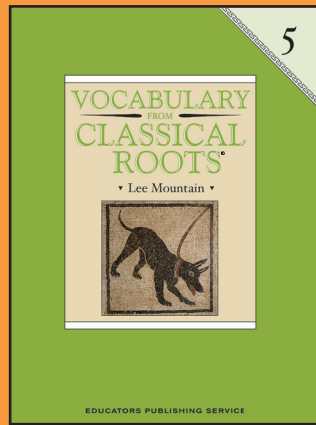

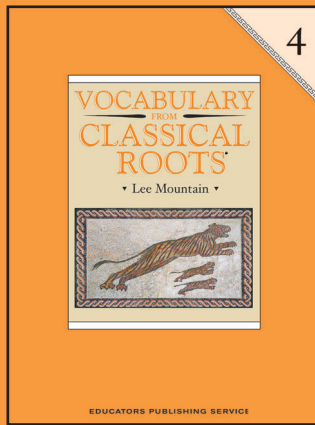

A. Hoop group**B. Untidy Friday****C. Weak technique****D. Jurassic classic**

1. _____ What do you call a disorganized day of the week?
2. _____ What do you call the first movie about a theme park with dinosaurs?
3. _____ How do you classify a basketball team?
4. _____ What do you call a method that is not strong and effective?

WORD LIST

(Numbers in parentheses refer to the lesson in which the word appears.)
